TOKYO, June 4-4 p.m.-The commander of the Japanese forces south of the Yalu river telegraphed from Seoul today news of a series of fights north of Pu-Lan-Tien, about forty miles north of Port Adams, Liao-Tung peninsula, Monday, received from Japanese cavalry scouting in the vicinity of Chu-Chia-Tung.

It was learned that Cossacks had been located at Telissu and the Japanese thereupon dispatched infantry and cavalry. which defeated and pursued them. The Russian force consisted of three squadrons. At Chang-Chia-Tun this force was joined by two additional squadrons and the Japanese again attacked and defeated the Rus-

THE SAIMATSZA FIGHT.

### Report Received at the War Office at St. Petersburg.

ST. PETERSBURG, June 4, 3:20 p.m .-The war office has received news of a sharp fight twenty miles north of Saimatsza, north of Feng-Wang-Cheng, June 1, in which eight Cossacks were killed and twenty-two wounded. The Japanese losses

at Fen-Chou-Ling pass, half way between Saimatsza and Ajludjan. The Cossacks dismounted and attacked on foot, but owing to the difficult nature of the ground and the strong defensive position held by the enemy and the latter's stubborn resistance the attack was not pressed and the Cos-

No particular importance is attached at the war office to the appearance of this de-tachment of the enemy, it being believed that Gen. Kuroki is keeping his flank well protected in order to rid himself of the pying eyes of the Cossacks.

The war office has received no fresh news from Liao-Tung. Since the receipt of Gen. Stoessel's report

the general staff is convinced that the Japanese losses in the fighting about Kin-Chou were greater than officially admitted. It is known that only the seriously wounded were included in that category. There are indications that both of the commanders are pursuing this plan, as the wounds made by the small-caliber high-velocity bullets used in modern warfare, unless they reach a vital spot, heal quickly, and in a few weeks most of the wounded men are again ready for active service.

Mukden Reports Unaltered Conditions. MUKDEN, June 4.-The situation in the war zone is not altered, and no news has been received here from Port Arthur. The Russian successes in northeastern Korea are said to be causing great disquietude among the Japanese.

### EYES ON KING EDWARD A Result of the Presence of the Ameri-

can Warships. Rear Admiral Chadwick cabled the Navy Department this morning from Tangier that the presence of the American fleet there has had a salutary effect, but that

the community is in a state of great reigious excitement. The admiral also reported that the Marietta, which was sent to Gibraltar, for stores, has rejoined the fleet at Tangier; that an Italian man-of-war has arrived and that an English warship was expected to arrive

at the Morogean port. Adm:ral Chadwick's cablegram is understood to be in reply to certain criticisms, mainly from British sources, upon the wis-dom of sending Americal, warships to Morocco at this juncture, it being the Britsh view that the release of the kidnaped men, Ferdicaris and Varley, can be more safely obtained by refraining from adding to the anti-foreign feeling of the Moors. Hence the British government has so far sent to Moroccan waters nothing more for-midable in a naval way than a small dispatch tout, the Surprise, and is relying en-

ter resident.
The religious excitement mentioned by Admiral Chadwick as prevailing among th Moors is said by some to be incident in the first place to one of the annual Mehamme dan pilgrimages occurring at this season. But undoubtedly the presence of the fleet of seven American warships at Tangier, with a promise of reinforcement if neces rary by the big battle ship squadron, is re-garded as threatening Moorish integrity and the Mohammedan religion, and has ad-ded to the excitement.

The Navy Department is advised by ca-ble of the arrival at Lisbon today of the battle ship Iowa and the collier Avarenda, where they rejoined Admiral Barker's north Atlantic squadron, which preceded them from Fayal.

ENGLAND BOTHERED ABOUT HIS VISIT TO GERMANY.

Fear Entangling Alliance and Point to His Former Visit to Emperor.

LONDON, June 4.-King Edward's activity in the field of international diplomacy has given rise to some uneasiness in foreign office and other gorvernment circles, which finds special vent in the comment regarding the forthcoming meeting of the king with Emperor William at Kiel. The Spectator voices this feeling today, expressing grave alarm at the possibilities which may ensue from King Edward's German visit, saying:

"It is suggested that the emperor will take the opportunity of his royal uncle's visit to entangle us in some form of agreement with Germany, or that, even if things do not go so far as that, Emperor William will somehow manage to compromise us in the region of foreign politics. When we remember what happened on the last visit of the emperor to England, how the British government against their will and interests and apparently without their knowledge were drawn into the Venezuela mess and the Bagdad railroad embroglio, we can hardly wonder at this feeling of anxiety. We feel pretty sure that a determined at-tempt will be made by the Germans to compromise us. The emperor, indeed, is almost bound to make the attempt, so sore are his people at their present isolation and repeated failures in the region of in-

ternational policy.
"We may then confidently expect that Germany is preparing to act on the maxim of 'when in doubt and difficulty pull Engwhat we are doing.' Germany, therefore, is that she is in reality Russia's best friend and that though she is not bound by any alliance, as is France, her good will is much more active and more efficient than

that of France. "Suppose Germany in the most friendly and most disinterested way were to talk to us about intervention, that is naturally to us about intervention, that is naturally not to be thought of, considering the special relations between Great Britain and Japan, but about helping Russia to make a peace—honorable to her and favorable to the best interests of all the powers interested in the far east, including Japan. If the suggestions of Emperor William for joint British and German action are of this kind or for anticipating the course of events in Macedonia, Asia Minor or Syria, we trust they will be met at the very outwe trust they will be met at the very out-set with a simple non possumus, and that we shall refuse to even test with a toe the surface of the bog, which we shall be assured is quite firm."

The Associated Press understands that

King Edward will be accompanied to Kiel by a member of the cabinet, probably For-Minister Lansdowne, so that the foreign office will be in a position to keep ouch with all developments and advise the king on the spot.

### THE HEARING POSTPONED.

Special Dispatch to The Evening Star. MANASSAS, Va., June 4.-Owing to an absence of complete court records, Judge Charles E. Nicol of the circuit court, in chembers at Manassas, this morning declined to entertain the motion of Commonwealth Attorney Mackey of Alexandria county for a rule dissolving the temperary writ of prohibition which the court recently granted restraining Justice of the Peace Jonathan R. Hagan of Alexandria county from hearing the case of James M. Hill, charged with conducting pool rooms at St. Asaph, in violation of the law of the state.

Mr. Carlin said he and his associates had come in response to a notice upon the petition of James M. Hill and announced that the papers had not been produced by the commonwealth attorney. He thereupon entered objection to further proceedings. Replying, Mr. Mackey stated that he had brought the papers in an identical case, one of a set of several which included the Hill case, and asked the court to proceed on that.

Judge Nicol said that though opposed to his custom, he would hear the argument if the attorneys for Hill would waive their objection. This being declined, a lengthy discussion was engaged in as to the time discussion was engaged in as to the time for a hearing.

Attorney Mackey pleaded for an early date, saying he wished to have the way cleared for the trial of the case in question and others involving the alleged gamblers at St. Asaph before Justice Hagan.

# AT THE WHITE HOUSE

German Editor Calls on the President.

### DENEEN'S SELECTION

IT IS SAID WILL REMOVE FRIC-TION IN ILLINOIS.

The Young Crusaders of Akron, Ohio, Received-Will Be Here a Week.

H. von Kupffer, editor of the Berliner

Local Anzeiger, one of the big papers of

Germany, paid a call upon the President this morning and they discussed the friendly relations existing between this country and Germany. Both expressed gratification at the constant increasing evidences of friendliness not only of an international nature, but between the two peoples. Mr. von Kupffer said he found the President an exceedingly amiable, courteous and intelligent executive and was delighted to meet him. In Germany, he said, the President was held in high esteem, and was regarded as one of the great rulers of the world. This judgment of the German editor is almost daily proven at the White House. It is seldom that a day passes that there are not among the visitors to the White House several Germans. There were two German visitors today besides the Berlin editor, and the President received them cordially. The impression the Germans bring with them to this country, and carry away after seeing the President, is that Mr. Roosevelt and Emperor William have many characteristics alike and that both are strong, able men. They all speak in praise of the President and praise him to their fellow countrymen in the United States. The President speaks German fluently and sometimes falls into the language to the great speaks. guage to the great surprise of his Prussian visitors. But this merely adds to the pleasant impression the visitors carry away with them:

### Satisfied as to Illinois.

A number of visitors told the President today that the nomination of Deneen for governor by the republicans of Illinois is a satisfactory solution of a difficult situation. One of these sanguine people was Representative Dalzell of Pennsylvania, who ran in for a chat with the President about political affairs and about an ap-

was the best that could have been taken," said Mr. Dalzell. "Deneen appears to be popular with all classes in Illinois, and I think that the long fight will have no dis-advantages to the republican party after all. Deneen will receive the support of the friends of Gov. Yates and of the inde-

Yates."

About the same view was expressed by ex-Representative Henderson of Illinois, who saw the President. Mr. Henderson sald the nomination was a good one and sald the nomination who are thus as much enthusiasm during endent, thinking class which would result in much enthusiasm during

the coming campaign. Deneen, he said, was an able, brilliant man.

Representative Brick of Illinois, who spent some time with the President, said that at one time there was some uneasiness as to the situation in Illinois, but that the action of the convenion in nominating Deneen for governor would overcome all this and that Illinois could be safely ranked in the republican column in November by a large majority. Mr. Brick fold the President that Indiana can be counted on

for the usual republican majority.

Representative Humphreys of Washington told the President that Washington is republican to a greater degree now than ever before. "Thousands of democrats will vote the republican presidential ticket," he sald, "and the state will be overwhelmingly

### republican in November.' Young Crusaders Are Received.

The President shook hands with a somewhat novel Ohio organization. It was made up of fifty-six young men and boys, in khaki uniforms, and carrying swords, who are known as the "Young Crusaders" of Akron, Ohio.

The organization is composed of boys who

attend the Church of Our Savior in Akron, and the rector, Rev. George P. Atwater, is at the head of the organization, being in general command. The young soldier-Christians will spend a week in Wash'ng-ton, having arrived here this morning. at 3117 O street. They are using the parish house of Christ Church and tents furnished them by the War Department. The President shook hands warmly with the young men, and said he hoped they would enjoy their visit to Washington. The program of "The Crusaders," who are unstrict military discipline, includes visits to different points in the city from now on. Two of Senator Dick's sons are members the organization.
